

A circular logo with a dark grey background and a white, peeling corner effect. The word "POLIFILM" is written in white, uppercase, sans-serif font across the center.

POLIFILM

PROTECTION FILMS MARBLE & HPL APPLICATION

OPTIMUM PROTECTION OF HIGH PRESSURED LAMINATES AND MARBLE SURFACES. THROUGHOUT FABRICATION, PROCESSING AND OTHER ASSOCIATED OPERATIONS.

EXCELLENCE IN FILMS

**POLIFILM
PROTECTON FILMS**
HIGHLY EFFECTIVE SURFACE PROTECTION.

**AT A GLANCE
MARBLE & HIGH PRESSURED LAMINATE SURFACES**

AN ASSORTMENT OF OUR MOST COMMONLY USED GRADES IN THE MARBLE AND HIGH PRESSURED LAMINATE SURFACE MARKET

Protecting high-pressure laminate, marble, solid surface countertops, bathtubs, sinks and cabinets is extremely important during the construction process. POLIFILM America has the right film for any job in the industry.

POLIFILM offers 2-3 mil adhesive coated films for glossy, dull and textured High-Pressure Laminate (HPL) surfaces. Our protective masking films are designed to be machine applied and remove cleanly. Our masking can withstand the fabrication processes commonly found in this industry, including cutting, drilling and routing.

POLIFILM products can also be hand applied during fabrication or installation of the finished product. In essence countertops, desks and office furniture.

| Product Code | Nominal Thickness (mil/μm) | Color | UV Resistant | Nominal Adhesion oz/in width N/cm width | Surface Type/Application |
|--------------|----------------------------|--------|--------------|---|------------------------------------|
| 2010 | 1.8/46 | BL, CL | No | 2.1 0.23 | High Gloss Marble/HPL |
| 2093 | 2.2/56 | CL | No | 11.9 1.30 | Textured/Matte Marble/HPL |
| 3040 | 2.6/66 | CL, GR | No | 4.0 0.44 | Semi-Textured/ Matte Marble/HPL |
| 3048 | 2.6/66 | BL, CL | No | 4.7 0.52 | Semi-Textured/ Matte Marble/HPL |

- ✓ Protects marble/cultured surfaces during all phases of production through installation.
- ✓ Designed to be machine applied and removed cleanly.

Standard Products: POLIFILM offers a full line of different thicknesses and adhesion levels. If you do not find the product required, or need assistance to determine which POLIFILM product is right for your application, please contact your sales representative.

Application Recommendations: The performance of all adhesive products is affected by many factors – heat, humidity, type of substrate, texture, lubricants used and application technique. POLIFILM’s suggestions and recommendations concerning the use and application of our products are based on laboratory tests that we believe are reliable. However, the purchaser must test the suitability of our products for their intended use under their own operating conditions. POLIFILM assumes no liability for claims beyond the replacement value of any defective products and is in no way liable for consequential or incidental damages. It is the customer’s responsibility for final approval of all products. All adhesion data was obtained on PSTC (bright annealed stainless steel). Only products designed for UV exposure should be used outdoors or stored in the sun (inside or outside).

STAYING CLOSE. WORLDWIDE AT YOUR SERVICE.

Surface Protection solutions where you need them, when you need them, with consistently reliable service and excellent quality standards: that is our customer promise. As part of the family run POLIFILM Group, one of the leading manufacturers of polyethylene film solutions, we have a global network of production sites, sales offices, service and logistics centers and trusted distribution partners. We can therefore combine rapid response at a local level, with the flexibility of a global player backed by a reliable family business.

POLIFILM stands for individual solutions. As we deal with today's complex challenges, we are doing our utmost for our customers by selecting from a range of more than 500 products in order to choose the most suitable solution.
